

Jay Forcucci

Cerex Advanced Fabrics, Inc.

Jay Forcucci is the Vice President of Sales and Marketing at CEREX Advanced Fabrics, Inc., which is located in Pensacola, Florida. CEREX produces nylon nonwoven industrial fabrics that are used in a variety of demanding end-use applications for the automotive, filtration, aerospace, fiber reinforced plastics and medical markets. Jay has significantly contributed to the advancement of nonwovens and continues to do so. He received the INDA Lifetime Service Award in 2010 and has chaired or served on several committees. He has also been a member or chairman of IEST and NFPA committees. Jay is a frequent presenter at AFS conferences and is a past Co-chair of the Filtration Conferences.

Jay received his MBA and BS in Chemical Engineering from Rensselaer Polytechnic Institute and has held a variety of Business Development and Sales and Marketing Management positions in his career.
