

Steve Kokolios

Graco

Steve Kokolios has been the Graco, Advanced Fluid Dispense, West Coast account manager for nearly two years, covering industries ranging from automotive, electronic, medical device, composites, to general industrial manufacturing, and represents all of Graco AFD's product lines, including fully customized systems. As the account manager, Steve serves as the focal point for discovering all application requirements and works closely with the engineering department to ensure that any proposed solution meets those requirements. Typical counterparts at customers are process and manufacturing engineers, technologists and project managers.

Prior to Graco, Steve worked for 6 years as a business development manager in the Specialty Reinforcement division of Owens Corning, and prior to that for 6 years as a business development manager at GKN Aerospace, giving him a solid understanding of both the engineering and manufacturing disciplines.

Steve holds an MBA from the University of California, Irvine and BS in Architectural Engineering from the California Polytechnic State University, San Luis Obispo. He lives with his wife in Orange County, California and has two adult children.
