

Yalong Li

University of Akron

Yalong Li was born in Urumqi and brought up in Tianjin, China, in 1988. He received a B.S. degree in polymer science and engineering from Beijing University of Chemical Technology in 2011. He came to United States right after graduation and spent his first year graduate study in materials science and engineering program at the University of Texas at Arlington. He joined Prof. Chase's group at the University of Akron in the end of year 2012. His research interests include experimentation and modeling of multiphase air-liquid filtration, liquid-liquid filtration, electrospinning nanofibers and electrostatic field simulation.
