

Christopher Muller

Purafil, Inc.

Chris Muller is the Technical Director at Purafil, Inc. (Doraville, Georgia USA) and is responsible for technical support services and various research and development functions.

He has written and spoken extensively on the subject of environmental air quality and the application and use of gas-phase air filtration in conjunction with ASHRAE Standard 62.1 and energy conservation practices and counts over 120 articles and peer-reviewed papers, more than 100 seminars, and 7 handbooks to his credit. Mr. Muller has edited chapters in two handbooks on the application and use of gas-phase air filtration and wrote the chapter on gas-phase air filtration in the NAFA Air Filtration Handbook.

He received his B.S. in Applied Biology with a minor in Chemistry from the Georgia Institute of Technology (Atlanta, GA) and has done postgraduate work in Industrial Engineering.
