

Scott Yaeger

FAST International, Inc.

Scott Yaeger has been working in the filtration and separation field for over 40 years serving in senior level roles in marketing, sales, manufacturing, engineering, R&D and general management for a number of worldwide companies. In 2004 he started FAST LLC as a consulting company working with a wide variety of clients from users, manufacturers, developers, etc. of companies from Fortune 500 to startups. In 2014 FAST LLC was changed to FAST International, Inc. to better define its role as a distribution, manufacturing, prototyping and consulting company.

He was the founding Chairman of the AFS and Chairman again in 2005.

He has presented over 100 papers at a wide variety of conferences.

He teaches the Microfiltration and Ultrafiltration Membrane Courses at AFS.
