

Bob Burkhead

Blue Heaven Technologies

Bob Burkhead is President and co-owner of Blue Heaven Technologies - a 12 year old US based air filtration testing laboratory. He has extensive experience in product and media development for a variety of commercially available products and services - primarily through his history of 15 years with AAF International and 10 years with Freudenberg Filtration in various management roles.

He is actively involved with standards development via ISO, ASHRAE, ASTM and others.
